SAFETY/FIRST AID

Safety is our paramount concern. In addition to what the venues provide, we will have a basic first aid kit with us at all times. All activities at Wildwater & the Gorge will be done with experienced guides. We will also have sufficient chaperones to assist the Kampers and monitor all activities. Please be prepared to advise us of any special medical or medication needs at orientation.

ZIP LINE INFORMATION: Day 1 (Monday, June 27th)—Kampers must bring a brown bag lunch this day.

The Zip Line at the Gorge has an automatic braking system that necessitates that zipliners weigh a minimum of 70 lbs. There will be a weigh-in when we arrive. No weights are allowed. Kampers should wear appropriate clothing for the conditions. Close-toed footwear that is suitable for hiking on variable terrain is required. Kampers should avoid wearing loose clothing, such as ponchos, scarves, and excessively baggy clothing. Short-shorts are not recommended. Due to the nature of the ride, we recommend that Kampers leave valuables such as jewelry and cell phones locked in cars.
